What does the Fund offer?

The Fund invests in high quality companies that have a structural and sustainable competitive advantage. It is managed by an experienced investment team using a unique, disciplined and proven investment process, focused on deep fundamental research.

Combined with a rigorous portfolio construction approach and risk discipline the Fund is focused on building real wealth over the long-term, capturing steady growth, by limiting downside risks.

Investment approach:

The Fund's underlying manager, Northcape Capital Pty Ltd (Northcape), believe that the most effective way to generate superior returns, given risk in global equity markets, is through a concentrated portfolio of no more than 40 high quality businesses invested over the long term.

The Fund does not set portfolio weightings relative to the composition of the index and country and sector exposures are an outcome of the portfolio construction process.

Northcape are very patient investors with low turnover portfolios.

Investment style:

Market capitalisation:

For illustrative purposes only. Aside from Northcape's 'quality' focus, the investment approach does not focus on any particular style or capitalisation bias. From time to time the portfolio might exhibit biases but these are not intentional.
