APIR code	WRA4779AU

What does the Fund offer?

The Fund invests in a hand-picked, high quality portfolio of Emerging Market businesses with clear opportunities for growth.

It is managed by an experienced investment team using a unique, disciplined and proven investment process, focused on deep fundamental stock and sector research.

Combined with a rigorous portfolio construction approach and risk discipline the Fund is focused on building real wealth over the long-term, by limiting downside risks, whilst capturing steady growth.

Investment approach:

The Fund's underlying manager, Northcape Capital Pty Ltd (Northcape), believe that the most effective way to generate superior returns, given risk in emerging markets, is through a concentrated portfolio of no more than 40 high quality businesses invested over an average time frame of three or more years.

The Fund does not set portfolio weightings relative to the composition of the index and country and sector exposures are an outcome of the portfolio construction process.

Northcape are very patient investors with low turnover portfolios.

Investment style:

Market capitalisation:

For illustrative purposes only. Aside from Northcape's 'quality' focus, the investment approach does not focus on any particular style or capitalisation bias. From time to time the portfolio might exhibit biases but these are not intentional.

About the investment manager:

Northcape is an international boutique fund manager fully owned by its staff. Northcape specialise in managing concentrated high-quality equity portfolios and has delivered significant value-added returns since their establishment in 2004, facilitating growth in funds under management to more than A\$10 billion.

One of the keys to Northcape’s success is their multiple portfolio manager structure, which encourages accountability, curiosity, constructive debate and diversity of thinking. This has been instrumental in attracting and retaining high calibre, experienced investment professionals.

Investment process overview:
